Safety Services Company is North America's leading provider of safety and compliance training products and services. Custom solutions — such as safety manuals and training kits, online training portals, safety meeting subscriptions, posters, and contractor pre-qualification compliance services — that enhance the safety of our customers' workplaces and wellbeing of their employees are the cornerstone of our organization. Through diligent research, in-depth customer touchpoints, and dedication of the company's team, our goal is to deliver our customers products and services that exceed their safety and compliance needs, expectations, and goals.
Tailgate Safety Meetings

Safety Meetings are easy to read and quick to deliver, allowing supervisors to efficiently and effectively incorporate safety into their day-to-day operation without stopping production. Choose from a large library of meeting topics that range from basic topics applicable to anyone in any industry, to highly-targeted and industry-specific topics. After ordering, your meetings are mailed in either monthly installments or all at once — your choice. After receiving the meetings, you simply read one a week to your employees during a quick team meeting. The entire process takes less than five minutes and helps to ensure a safe, productive workplace.

Each safety meeting is on 2-ply NCR paper for multiple copies.

Employees are read the meeting and sign it. The document then becomes safety meeting minutes and is an invaluable record.

Fill in your Company Name, Jobsite Location, Date, etc. during the safety meeting, and you have the documentation you need of the safety training.
LMS Training

Safety Services Learning Management System

With our LMS training system, your company gets unlimited access to more than 100 training programs for a low annual fee. These programs combine all the features of our “Train the Trainer Kits”, plus add in-depth reporting, access via mobile devices and more. To get started, you simply select the suite that fits your company’s needs. Compliance with OSHA safety training requirements is now easier and more affordable than ever.

Benefits of LMS Training

Always Current & Compliant
All courses within our online training program are updated whenever a regulation changes at no additional cost.

Engaging Active Training
Training titles combine videos, slides, interactive elements & assessments to create an engaging platform proven to deliver higher quality results.

Simple Safety Management
Our online learning program allows you to print certificates/wallet cards and track, assign and report on all training activity.

Cost Effective
Our program gives users access to more than 100 training programs a year at a cost of less than $2 per user per course.

Mobile
Our system allows you to deliver training on all Internet-equipped devices, this includes tablets and smart phones. If your Internet connection is down, you can download our free training app for Apple & Android Devices. This app will allow you to download courses to take offline, and will sync all information once your connection online again.

2 Suite Options

OSHA Suite:
- Confined Spaces
- Fork Lifts
- Aerial Lifts
- Hand and Power Tools
- Earth Moving
- Excavation
- Ladder Safety
- Scaffolding
- Bloodborne Pathogens
- First Aid Training
- PPE
- Material Handling
- Welding
- Respiratory
- Electrical Safety
- Fall Protection
- HAZCOM
- LOTO
- Heat stress
- And More

Oil & Gas Suite:
- Heat Stress
- Cold Stress
- H2S
- Hotwork
- Fatigue Management
- Excavations
- Oil Rig Safety
- Fall Protection
- Oil Field Driver Safety
- Oil Field Trucking
- Electrical Safety
- Lockout/Tagout
- Confined Spaces
- Forklift
- Aerial Lifts
- Hand and Power Tools
- Earth Moving
- Ladder Safety
- Scaffolding
- Bloodborne Pathogens
- First Aid Training
- PPE
- Material Handling
- And More

Get Started Today:
To get started select the suite of classes that best fits your industry and then select the number of employees you will have in the system. You can use the order form in the back of the catalog to purchase or you can call us. Once we receive your information we will set up your account & send your login credentials.

Call for volume and multi-year discounts!

Drug-Free Workplace

Drug-Free Workplace Program

The training material provided with this Drug Free Workplace Program (DFWP) is adequate to comply with any awareness training requirements that may be encountered, for employees and supervisors alike. With this Drug-Free Workplace Program in place, you can save money and proudly state that you have a Drug-Free Company.

This Program Includes:
- The Primary Company DFWP Manual
- The Employee Requirements Handout
- Assignment of Responsible Personnel
- Letter to All Employees
- Employee 60-Day Notice of Drug Testing
- Employee Consent and Compliance Statement and Acknowledgment
- Pre-Employment Consent and Release
- Notice of Screening/Testing
- Testing Designated Position Notice
- Important Phone Numbers and Publications
- 13 Lessons – Employee Substance Abuse Awareness Training Program
- 9 Lessons – Supervisor Training
- Certificate of Completion – Substance Abuse Awareness Training Program
- Drug Testing Workplace Notice

OSHA Industry Standards Books (Current Edition)

This book includes both Federal volumes of 29 CFR 1910 bound into one volume that is over 700 pages in length. This book contains detailed information about all of the OSHA standards and regulations affecting general industry. Included, you will find the 29 CFR 1903 regulations about inspections, citations and penalties; the 29 CFR 1904 regulations about recording and reporting occupational injuries and illnesses; and all of the 29 CFR 1910 regulations for general industry. Also included is the OSHA 300 Log, Sharps Injury Log, Incident Report Form and selected OSHA letters of interpretation. English Only.
Manuals

Injury & Illness Prevention Program (I2P2)

Custom safety manuals meet the requirements of State, Federal and Provincial safety regulators—including OSHA and OHS—that require you to have a series of health and safety policies tailored to the hazards of your workplace.

• Get a 100% turn-key solution for your safety policy documentation
• Customize with your company name and logo
• Fulfill OSHA & OHS requirements for your safety program
• Access your documentation through a professional, printed binder, or through the included CD
• One year maintenance included with each manual to ensure your I2P2 remains up-to-date with changing regulations.

Your custom safety manual contains standard, required chapters plus additional chapters focused on issues specific to your industry. With a professional three-ring binder customized with your company’s name and logo, present your company’s safety policies in a polished and accessible manner.

Examples of Completed Chapters

• Accident Investigation
• Emergency Response
• Bloodborne Pathogens
• Violence Prevention
• PPE
• Hazard Assessment
• Recordkeeping
• Hazard Communication
• Heat Stress Prevention
• Forklifts
• Cranes and Mobile Equipment
• Asbestos
• Hearing Conservation
• Indoor Air Quality
• Lead Exposure
• Ionizing Radiation
• Automotive Lifts
• And hundreds of others

What They’re Saying

Very Impressive!

“We received our I2P2 today. I am so very impressed with you and your company. This was the easiest transaction for a manual that I have ever been involved with. We had our safety inspection this a.m. and we passed with flying colors — thanks to you!”

Posters

Industry Posters - $99.99

Safety Services Company is proud to announce the release of our updated and redesigned Industry-Specific Posters. With this new release we now offer four year’s worth of Industry posters for Construction, HR, Restaurant and Retail.

**Agriculture** — First Aid, Migrant Workers, Chemicals, General Farm Safety, Personal Protective, Equipment (PPE), Workers and Pickers, Tractors

**Auto** —
Series 1: Hazard Communication, Slips Trips & Falls, Safe Lifting, First Aid, PPE, Hand & Power Tools, Driving Safety; Carbon Monoxide
Series 2: Asbestos Brakes & Clutches, Shop Safety Checklist, Air Tool Safety, CNG Powered Vehicles, Hexavalent Chromium and Overspray Control

**Bars/Clubs** — Alcohol Poisoning, Slips Trips & Falls, Safe Lifting, First Aid, Sexual Harassment, Bar Violence Prevention, Ergonomics, MRSA Infections, Child Safety Checklist

**Child Care** — Bloodborne Pathogens, Hand Washing, Choking, First Aid, Child Abuse & Day Care, Preventing Poisoning, Ergonomics, MRSA Infections, Child Safety Checklist

**Construction** —
Series 1: Ergonomics, Fatigue, Housekeeping, Fitness
Series 2: First Aid, Forklifts, PPE, Ladder Safety
Series 3: Tool Safety, Top Hazards, Scaffolding, Safe Practices
Series 4: Aerial Lifts, Falls, Excavation, Electricity

**Federal Contractor** — Davis-Bacon Act, E-Verify, Right to Work, Government Contracts, National Labor Relations Act

**Health Care** — Bloodborne Pathogens, Hand Washing, Hazard Communication, First Aid, Slips Trips & Falls, Safe Lifting, Personal Protective Equipment (PPE), MRSA Infections, Needlestick & Sharp Injuries

**HR Compliance** —
Series 1: Fire Extinguishers, Sexual Harassment, COBRA, Drug-Free Workplace
Series 2: Emergencies, HIPAA, Flu, Violence
Series 3: Ergonomics, Exit Routes, OSHA, Success Factors
Series 4: Duty to Accommodate, Fitness, Housekeeping, Fatigue

**Manufacturing** — First Aid, Lockout & Tagout, Safe Lifting, Forklifts, Hazard Communication, Safety Management, Machine Guarding, PPE, Shadow Work

**Mining** — Rules to Live By III, Coal: On-Shift Examination, Machinery and Equipment, Loading and Haulage Equipment, Daily Inspection, Raised Platform, Highwalls Pits and Spoil Banks.

**Mortuary** — First Aid, Safe Lifting, Slips Trips & Falls, Formaldehyde, MRSA Infections, Bloodborne Pathogens, Ergonomics, PPE

**Pharmacies** — First Aid, Safe Lifting, Slips Trips & Falls, Consolidated Omnibus Budget Reconciliation Act (COBRA), MRSA Infections, Bloodborne Pathogens, Chemicals, HIPAA

**Restaurant** —
Series 1: First Aid, Choking, Hand Washing, Teen Workers
Series 2: Foodborne Illness, Hygiene, Food Handling, Burns
Series 3: Falls, Lifting, Drug-Free Workplace, Fire Extinguishers
Series 2: Emergency Policies, Sexual Harassment, Flu, Violence

**Retail** —
Series 1: Lifting, Violence, Fall, Sexual Harassment
Series 2: First Aid, Choking, Ergonomics, Teen Workers
Series 3: First Extinguishers, Ladders, Flu, Hand Washing
Series 2: Angry Customers, Hygiene, Counterfeiting, Shoplifting

Posters

**State and Federal Labor Law Posters**

As a business owner, you need to focus on making money, not on what the new labor laws are. Our $99.99 OSHA poster combo of a federal and state poster means that if the government updates its requirements, you receive that update for free.

**Federal:**

Includes Equal Employment Opportunity, USERRA, OSHA, Employee Polygraph, minimum wage, Family and Medical Leave Act, Military Leave Act, Military Leave Notice, IRS withholding announcement, Employee Payday Notice, INS Anti-Discrimination, and National Labor Act. (Available for U.S. in English and Spanish)

**State Labor Law Posters:**

Every state has its own regulations and required posters. To be in full compliance, both the state and federal laws must be posted at every worksite. (Available for U.S. in English and Spanish)

**Guarantee:**

The included certificate guarantees that not only were the posters current at time of purchase, but that they will be for one year.

Accident Investigation Training Kit

“Accidents will happen.” We have all heard that statement before. Unfortunately, sometimes it is true. In spite of our best efforts, things occasionally do go wrong. While many accidents seem to happen for obvious reasons, there may be things that contribute to an accident which are not always apparent. That is why it is vital to conduct a thorough Accident Investigation. This accident investigation program guides you through the proper steps to complete a proper accident investigation.

Posters

Motivational Posters

More than 80 motivational posters in a variety of styles and subjects. Posters are available in three sizes: LP* (18” x 24”) $34.99; Jumbo (24” x 32”) $39.99; and Banner (3’ x 4’) $59.99. All posters are available in Spanish. Prices include two sided lamination.
OSHA Recordkeeping Training Program

This product covers the details of the OSHA’s recordkeeping standard 29 CFR Part 1904. The titles is designed to demonstrate what each level of employee’s responsibilities are in documenting and reporting recordable accidents and review the information that they need to provide.

This training program was specifically designed to give guidance in accident investigation. Information presented in the program includes:

- Goals of Accident Investigation
- Securing an Accident Scene
- Root-Cause Analysis
- Investigation Interviews
- Reporting “Near Misses”
- Role of Policies, Equipment & Training

Exit Routes, Emergency Action Plans, and Fire Prevention Plans

OSHA and numerous state regulations call for all workplaces to meet a number of emergency preparedness and fire protection requirements. OSHA’s 29 CFR 1910 Subpart E covers the minimum requirements for exit routes that employers must provide in their workplaces so employees may evacuate the facilities safely during an emergency. This section also covers the minimum requirements for emergency plans and fire prevention plans. Every facility should have an “Emergency Plan” that spells out what is to be done in case of an emergency, and this plan should be communicated to employees and others who may be involved.

An employer must also have a fire prevention plan and it should complement the emergency action plan. A fire prevention plan must be in writing, be kept in the workplace and be made available to employees for review. Employers must also conduct training on exit routes, fire prevention and more. The products on the next four pages are designed to help your company meet these standards.

Emergency Planning Training Kit

Existing OSHA and numerous state regulations call for all facilities to meet a number of Emergency Preparedness requirements. Every facility should have an “Emergency Plan” that spells out what is to be done in case of an emergency, and this plan should be communicated to employees and others who may be involved. Our emergency training plan will teach your employees about what to do in the event of an emergency, how to stay prepared for an emergency and more.

This program will assist facilities in complying with OSHA regulations and help them prepare for potential emergency situations. Information includes:

- Types of Emergencies and The Emergency Plan
- The “Crisis Management Team”
- Evacuation and Communications
- The Role of Outside Agencies
- Practice Sessions and Drills

First Aid

First Aid Training Kit
1910.151 & CFR 1926.50

In most facilities, not a day goes by without some type of injury occurrence. It can be as serious as a chemical burn, or as minor as a small cut, but any injury can be painful and affect an employee’s work performance as well as their life off the job. Our first aid training program teaches your employees how to perform basic first aid to prevent the consequences of workplace injury.

Program Covers:
- Cuts, Bleeding, Muscle Pulls and Sprains
- Burns, Broken Bones, and Shock
- Artificial Respiration and CPR

General First Aid Kit

This kit contains a small variety of commonly used first aid items. Replacing used items is easier with the unitized design of its contents. This kit comes in a plastic container with handle and exceeds ANSI Z308.1 and OSHA standard 1910.151.

Items included:
- Absorbent Compress (4” x 8”)
- 100 Adhesive Strips 1” x 3” (plastic, box/100)
- 1 Triangular Bandage (40” x 40” x 56”)
- 5 Fabric Assorted Adhesive Strips (box/5)
- 30 Antiseptic Treatment Applicators
- 6 Burn Treatment Applications
- 6 Antibiotic Ointment

Deluxe First Aid Kit

This kit contains a greater variety and more products than any other 50 person first aid kit. It comes in a sturdy metal container that is wall mountable. This kit meets and exceeds ANSI Z308.1 and OSHA standard 1910.151.

Items included:
- Gauze Bandage 2”
- 1 Gauze Bandage 4”
- 2 Eye Pads with strips
- 2 Analgesic (Aspirin) box of 12 325mg
- 1 Bandage, Compress (Ace-style) 2” x 5yd

Workplace Bloodborne Pathogens Training CFR 1910.1030

Despite being adopted as an OSHA standard in 1991, many businesses struggle to meet the training requirements of OSHA’s BBP standard. To eliminate those struggles, we created our “Do-It-Yourself” BBP training program. With this program you can train all your employees again and again for one low cost. The program is available in both healthcare and general industry versions.

**Program Covers:**
- Contents of the Standard
- Epidemiology and Symptoms of Bloodborne Diseases
- Modes by which Bloodborne Disease is Transmitted
- The Exposure Control Plan
- PPE
- Practices to Prevent Exposure
- Signs, Labels & Containers
- Emergency Procedures
- Follow-Up Procedures

Eye Wash Station

Green Eye Wash Station meets OSHA and ANSI requirements for use in areas with corrosive chemicals. Comes with wall mount bracket, two bottles of preservative and two service tags. Size: 19.25 W x 24 H x 11.5 D

Chemicals pose a wide range of health and physical hazards. OSHA’s Hazard Communication Standard (HCS) and Canada’s Workplace Hazardous Materials Information System are designed to ensure that information about these hazards and associated protective measures is disseminated. This is accomplished by requiring chemical manufacturers and importers to evaluate the chemicals they produce or import and to provide information about them through labels on shipped containers and more detailed information sheets called safety data sheets (SDS). Furthermore, all employers with hazardous chemicals in their workplaces must prepare and implement a written hazard communication program, ensure all containers are labeled, provide access to SDS and implement a training program. The following products are designed to help your company meet the requirements of this standard.

Economy Right to Know (RTK) Center

The Economy RTK Center comes with a SDS binder of your choice, a red & yellow acrylic sign and a yellow wire rack. Item measures 20”h x 14”w x 5”d.

WHMIS Training Program

The Canadian government developed the Workplace Hazardous Materials Information System (WHMIS) to ensure worker safety when dealing with hazardous chemicals. The system is in place in all Canadian provinces and calls on employers to develop, implement, and maintain a worker education program enabling employees to work safely with hazardous chemicals.

Kit Includes:
- Interactive Computer Training Program
- Sample Policy
- Certificates
- Training Log / Sign-in Form
- List of Site Specific Information
- Wallet Card / ID Card
- Student/Instructor Manuals

Program Covers:
- Labeling
- Physical Hazards
- Health Hazards
- Systems of Exposure
- Acute & Chronic Effects
- Leaks
- Portable Containers
- And more...

PPE Training Program 1910.132 & CFR 1926.82

Ensure your employees are aware of the PPE in the workplace and how to properly use it with the PPE training program. With both hard-bound and disc-based student and instructor manuals, this kit is designed for individual training sessions via computer, group sessions in a classroom setting, or on the jobsite.

Hearing Conservation Safety Training Kit 29 CFR 1910.95
Over 15 million Americans have a measurable hearing loss, most often caused by “on-the-job” injuries. Many employees don’t realize that not only can hearing problems affect their work, they can alter their personal lives dramatically as well.

This training program has been specifically created to assist facilities in complying with OSHA’s revised Hearing Conservation Standard and includes:

- How Our Ears Work and Types of Hearing Loss
- Common Causes of Hearing Damage / Loss
- Noise Avoidance and Hearing Safety Practices
- Selection and Use of Hearing Protection

Respiratory Safety 29 CFR 1910.134

Every day thousands of workers are subjected to airborne contaminates. These different contaminates can cause great harm to the respiratory system and other vital systems if allowed to enter the human body. To protect you from such hazards, OSHA created the Respiratory Protection Standard 29 CFR 1910.134. This training program is designed to assist employers in meeting these training and safety requirements.

The program addresses the major areas needed to comply with the standard:
- Respiratory Protection Program
- Selection of Respirators
- Medical Evaluations
- Fit Testing and User Seal Check
- Maintenance & Care
- Training

Cold Stress Training Program
Under OSHA’s General Duty Clause, employers are required to provide their employees with a place of employment that “is free from recognizable hazards that are causing or likely to cause death or serious harm to employees.” This includes cold-related hazards that can cause death or serious bodily harm.

In addition to US requirements, cold stress training is required in many Canadian Provinces when the temperature drops below a certain level or if employees are regularly exposed to cold weather environments.

To help employers meet their training requirements we developed our “Do-it-Yourself” Cold Stress training program. With this easy to use kit you can train and certify all your employees on the hazards of working in cold weather environments.

Heat Stress
Training Program

OSHA’s General Duty Clause citing employers for failing to take steps to protect employees from heat related illness. Other states like California and Washington require you to have in place a strict policy dealing with exposure to high heat environments.

Take the headache out of meeting this standard with our “Do-it-Yourself” Heat Illness Prevention training program. This interactive training package provides your company the tools needed to both train employees and help develop a Heat Illness Prevention policy. Call today for more information.

Electrical Safety

**CFR 1926 Part K & CFR 1910.331-3**

Electricity is all around us. It lights up our homes, powers much of the machinery and equipment that we use and runs tools. We are so used to it that most employees “take it for granted.” This “DIY” training program teaches employees how electricity works and what they should do to protect themselves from its hazards.

Hand & Power Tools

Tools improve the efficiency and speed of any job. However, injuries can be caused by either misuse of a tool or use of a damaged tool. In fact, an estimated 8 percent of all compensable injuries are caused by incidents associated with hand tools. These injuries can be serious, including loss of fingers or eyesight.

OSHA regulates hand and portable powered tools with standards 29 CFR 1926 Subpart I and 1910 Subpart P. Under these statutes employers are responsible for provide employees with the proper, machine guards, training and more. To help your company maintain compliance with these standards we offer the following products.

Hand & Power Tool Training Program

Avoid fines and prevent injury with our “Do-it-Yourself” Hand and Power Tool Training Program. This simple to use program allows you to train your employees at computer terminals, in the field or a combination of the two. There is now no reason to hire expensive safety consultants or send your employees to outside training classes.

Asbestos & Earthmoving

Asbestos Awareness Training Kit
29 CFR 1910.1001 & 1926.1101

OSHA regulations require that all employees who could come into contact with materials that might contain asbestos be given appropriate training on working safely in these situations. This training program is specifically for those employees who work in buildings that contain undisturbed asbestos. Since many materials commonly used in buildings for many years (including ceiling tiles, vinyl flooring and wall pipe insulation) contain asbestos, this means that the regulation applies to many employees throughout the country.

This training program provides the majority of the information needed to satisfy the training requirements for Class IV employees under the OSHA regulations including:

- Hazards of Asbestos
- OSHA Asbestos Standards
- Composition & Nature of Asbestos
- Materials Containing Asbestos
- Limiting Exposure and how to Protect Yourself

Material Handling & Excavation

Material Handling Training Programs

Unsafe material handling is among the most common causes of work-related injuries. These injuries can cause personal suffering, loss of income, and cost businesses profits. To help prevent these types of injuries, we developed our material handling training programs. The heavy equipment material program focuses on rigging, cranes and slings. The Manual Material Handling program provides a focus on moving materials.

Forklift & Scaffolds

Forklift Training and Certification Program

Both U.S. and Canadian workplace safety regulators require employers to train employees on forklift operation and hazards. To meet these requirements we developed our forklift training and certification program. With this simple to use program allows you can train your employees at computer terminals, in the field or a combination of the two.

Program Covers:
• Fulcrum Principle
• Stability
• Hydraulics
• Forklift Data Plate
• Manuals
• Lift Batteries
• Propane (LPG)
• Gasoline & Diesel Refueling
• And More…

Kit Includes:
• Interactive Computer Training Program
• Program Outline
• Quiz/Certificates
• CD Containing Reproducible Materials
• Wallet Card / ID Card
• Student/Instructor Manuals
• And more …

Scaffold Tags

Clear, vivid text fused into the rugged, industrial grade polypropylene creates a strong durable tag. Tags have superior UV protection and are chemical and water resistant. Message and color indicates whether or not the scaffold is safe for use. Red color indicates danger, and the scaffold should not be used. The green color indicates scaffold is safe for use. The back of tags has a sign-off chart for inspections.

Scaffolding & Scissor Lift

Scaffolding Training Program
Avoid fines and prevent injury with our “Do-it-Yourself” Scaffolding Safety Training Programs. These simple-to-use programs allow you to train your employees at computer terminals, in the field or a combination of the two. Programs are available in both suspended and supported versions.

Suspended Program Covers:
• Capacity
• Selection
• Suspension Scaffolds
• Single-Point Adjustable
• Two-Point Adjustable
• Falling Object
• Protection
• Fall Protection
• And More

Kits Includes:
• Interaction Computer Training
• Program Outline
• Quiz/Certificates

Supported Program Covers:
• Mobile
• Pole Scaffold
• Bricklayer’s Square
• Capacity
• Selection
• Hazards
• Usage
• Types
• And More

Kits Includes:
• CD Containing Reproducible Materials
• Wallet Card / ID Card
• Student/Instructor Manuals

Padlocks

These optimal safety padlocks are designed exclusively for Lockout/Tagout. These padlocks are durable, standardized, substantial and identifiable as required for OSHA 1910.147 compliance. Stands up to chemicals, temperature extremes and are UV stable. Locks include write-on labels.

Red, Orange, Yellow, Green, Blue, Black, Purple & Teal. (Please specify when ordering.) All locks come standard with a 1½” shackle and the #LO410 & #LO411 may be special ordered with a 3” shackle (+$2.00).

All locks come keyed different with 1 key per lock. Keyed alike and master keying are available by special order and with special pricing.

Online 10/30 Hour Training Program

Safety Services Company is proud to announce the release of online 10/30 hour training. These courses provide the SAME certification as the classroom-delivered course taught for many years under the OSHA Outreach Program. Upon successful completion of the course, students will receive a course completion certificate and a wallet-sized DOL/OSHA completion card. The courses are appropriate for construction workers, foremen, job supervisors, inspectors, etc., involved in the construction industry.

10 Hour Topics:
- Introduction to OSHA
- Focus Four Hazards and Preventative Measures:
  - Personal Protective Equipment (PPE)
  - Health Hazards in Construction
  - Materials Handling, Storage and Use
  - Hand Tools and Power Tools
- Leading Cultural Change

30 Hour Topics:
- Introduction to OSHA
- Contractor’s Safety and Health Program
- Reporting and Record Keeping
- Electrical Hazards
- Fall Protection
- Materials Handling
- Cranes and Rigging
- Motorized Mobile Platforms
- The Competent Person
- Excavations
- Work Zone Traffic Control
- Forklift Hazards
Welding & Fall Protection

Welding Safety Training Kit
29 CFR 1910.252-254

Whether an employee is working with the hazardous gases of an “oxyacetylene” unit, the high voltage of “stick welding” or the combination of gas and electricity that powers “MIG” and “TIG” operations, flying sparks, toxic fumes, electric shock and high temperatures are just some of the things that can make welding a dangerous occupation.

This training program reminds employees that there are indeed a number of hazards associated with welding and provides the information they need to work safely when involved with welding operations.

- Sparking and the Risk of Fire
- Hazardous Fumes and Ventilation
- Personal Protective Equipment

Complete Kit Contains: interactive training program, leaders guide, student guide, training log, certificates, wallet cards and site specific information.

Fall Protection Training Program

Avoid fines and prevent injury with our “Do-it-Yourself” Fall Protection Training Program. This simple to use program allows you to train your employees at computer terminals, in the field or a combination of the two. There is now no reason to hire expensive safety consultants or send your employees to outside training classes.

Complete Training Kit #3FALL1 N/A $499.99

Program Covers:
- Fall Protection Systems
- Lanyards & Lifelines
- Inspection & Maintenance
- Lanyard Inspection
- Using Personal Fall-Arrest Systems
- Guardrails & Safety-Nets
- And more …

Kit Includes:
- Interactive Computer Training Program
- Program Outline
- Quiz/Certificates
- CD Containing Reproducible Materials
- Wallet Card / ID Card
- Student/Instructor Manuals
- And more …

Ladder Safety

29 CFR 1910.25-.0

Ladders are one of the most commonly used pieces of work equipment. There are many types of ladders, which are rated according to their load capacity. Ladders are such simple tools that many people forget the dangers involved when using a ladder. Falls are the leading cause of death in the construction industry and the misuse of ladders is one of the leading causes of fall-related injuries every year.

Contractor Prequalification - Phone Consultation

Do You Need Help with ISNetworld®, RAVS®, PEC Premier®, PICS® Auditing, CanQual, ComplyWorks, or Other Third-Party Auditor Safety Program Requirements?

Safety Services Company Offers Contractor Prequalification and Verification Services Assistance—Backed by Safety Experts Knowledgeable in Navigating Complex Third-Party Auditor Requirements.

Third-party organizations such as ISN® (ISNetworld® database), PEC Premier®, PICS®, CanQual, ComplyWorks, and others verify contractors as compliant and safe prior to working in the oil, gas, & petroleum industry. The verification process is involved and often complex, and includes detailed online account set-up and written manual requirements.

Safety Services Company handles these time-consuming and challenging tasks for you—allowing you to continue to focus on your business. We offer a complete maintenance program and management of your account. Our 1-year and 2-year programs ensure you never have to worry about managing your account due to new requirements or quarterly updates.

Let us help you get up and running today—over 5,000 satisfied clients!

Making the Pre-Qualification Process Easier for You

1. **Extensive Research & Knowledge of Providers & Process**
   We work in accordance with the requirements of the major pipeline transmission lines throughout the United States, Canada, and Australia. We have dissected the Occupational Health and Safety legislation for each Province and Territory to determine regulatory requirements for all contractors.

2. **New Account Set-Up with Providers**
   We ensure 100% program submission in 72 hours or less.

3. **Written Manual Specific to Your Company**
   We will write, build, and create your entire manual as mandated by major gas, oil, and petroleum owner-clients.

4. **Manual & Account Detail Submission**
   We handle your program's completion and submission of all uploads. The time-consuming hassles of submitting each individual chapter is taken out of your hands.

5. **Ongoing Account & Manual Maintenance**
   We offer a complete maintenance program and management of your account.

*Safety Services Company is an independent company, with no agenda other than to help you get approved by Third-Party Prequalification Providers such as ISNetworld®, PEC Premier, PICS and CanQual. Safety Services Company is in no way endorsed, sponsored, approved by, or otherwise affiliated with ISNetworld®, ISN®, ISNetworld®, and RAVS® are registered trademarks of ISN Software Corporation®.
**Qualification Services**

**Health, Safety and Environmental Manuals**

Whether you need to construct your first Health, Safety and Environmental manual or need new chapters for an existing manual we are here to help. Through our manual service we can craft a manual for your company that fulfills all current RAVS® requirements and meets any other safety policy needs of the owner operator you are trying to get approved to work for.

- Service includes:
  - Craft individual chapters
  - Upload requirements
  - Deliver hardbound manual
  - Pocket manuals for each employee
  - Digital Copy

**Providers we offer HSE manuals for:**

- ISN®
- NCMS®
- PEC®
- PICS®
- ACHILLES®
- Veriforce®
- ComplyWorks®
- CanQual®
- BROWZ®
- And Others

**Examples of Completed Chapters**

- Accident Investigation
- Benzene Awareness
- Emergency Response
- Bloodborne Pathogens
- Violence Prevention
- PPE
- Hazard Assessment
- H2S
- Recordkeeping
- Hazard Communication
- Heat Stress Prevention
- Forklifts
- Cranes and Mobile Equipment
- Asbestos
- Hearing Conservation
- Lead Exposure
- Ionizing Radiation
- Waste Management
- And hundreds of others

“SSC was able to assess my needs, recommend options, save me time and give me the peace of mind that is much needed not only when working within ISNetworld, but also in safety compliance overall. It’s always nice to speak to someone who is well informed, on task and efficient. I will be sure to recommend anyone looking for compliance help to SSC. I know that they will be taken care of and valued. These are important qualities when you are spending money to receive a service. I look forward to your continued business relationship.”

-Christina F. Rangel
RSO Oregon Washington Laboratories
Qualification Services

Training Documentation Programs

While some contractors are satisfied with the completion of the HSE manual others will require you to complete training documentation (TRAVSTM*). With our training document service we:
- Determine training documentation needed
- Provide you paperwork to document training with employees
- Upload all documentation

“We had been struggling for about 6 months trying to complete our enrollment with ISNetworld®*. We had a failing grade. Safety Services Company took over and in 1 week we were compliant with 100% RAVS®* Safety Review and a grade of A!”

-Ann Dickerson
Kay Communications Inc.

Questionnaire Process

Through our Questionnaire Process we will identify the gaps in your Third Party certification and work to fill those gaps.

Questionnaire process consists of:
- Complete all 2,200 questions matching your HSE
- Assist with Gap Report
- Upload all insurance & statistical docs

Account Maintenance
Third party pre-qualification companies implement quarterly updates that require you to modify your program or fall out of compliance. Let us eliminate that risk with our annual maintenance program. Through this program we will:

- Monitor your account and make needed changes
- Add new chapters
- Ensure a maximum compliance score

“I have been the Health, Safety, Training and Quality Manager for B&W Fluid Dynamics, Inc., for the past 17 months. Without the help of Safety Services Company my job would be very difficult to administer. We have about 70 employees working in the petrol chemical industry. Safety Services makes it easy for us to administer, track and keep up to date on safety issues.”

-Ed Dill
B&W Fluid Dynamics Inc.

Providers we offer maintenance plans for:

Custom Content at a Great Price!
Our top quality training kits and LMS presentations can be customized for your company’s specific corporate identify. Logos, color schemes, fonts, and even your own video content can be seamlessly integrated with our comprehensive training material.

Why hire costly graphic designers, photographers, and videographers, when you can have everything done quickly and stress free with the help of our design team? Work directly with our artists and get the look company is looking for!

SAFETY SERVICES COMPANY®
Food Safety and Personal Hygiene

Good personal hygiene and proper food handling play a vital role in the health and well-being of not only yourself but those whom you serve. Research has shown that improper food handling, preparation and storage and bad personal hygiene can and will result in food poisoning (also referred to as foodborne illness).

The program addresses major safety issues related to the food service industry including:

- Hand Washing and Personal Hygiene
- Steps to Food Safety
- Cross-Contamination
- Cooking Temps
- Food Storage
- Proper Cooling

Knife Safety Training DVD

Knives are necessary, yet potentially dangerous, tools. This video is targeted toward anyone who uses knives but focuses on a food service environment.

Describes proper personal protective equipment, “how to” information on storing, cleaning, and handling knives.

This information is vital to the prevention of cut, slice and puncture wounds.

10 min. DVD $120

- 5014A (S) English
- 5014AS (S) Spanish
Safe Food Handling

According to the CDC, every year in the US, 48 million people are infected with a food borne illness, 128,000 are hospitalized and 3,000 die. This is entirely preventable. Foodborne illnesses can be prevented.

The first step is education. This program provides basic, introductory instruction on the six major elements of food handler safety.
Training Kits

Hospitality GHS

This video fully explains the new (GHS) Globally Harmonized System and how it is to be integrated with your current HAZCOM program. The video fully explains the key points of the change, replacement of MSDS with the new SDS, new symbols and labels, plus new classification. This program trains employees, supervisors and management on the elements of the new system.

17 min.
DVD $120
- 5049A (S)  English
- 5049AS (S)  Spanish

Preventing Slips and Falls

Slips and falls can happen to almost anyone on your property: Guests, Bell Staff, Front Desk Staff, Housekeeping, Maintenance, Management and others. These unfortunate events can also happen almost anywhere on your property, Parking Lots, The Lobby, Stairs, The Kitchen, Bathrooms and Conference Facilities.

This video takes a look at several different scenarios and examines what circumstances or conditions contributed to each incident, employee behavior that contributed to each incident and what steps can be taken to prevent future similar occurrences.

10 min.
DVD $120
- 5025A (S)  English
- 5025AS (S)  Spanish

Preventing Workplace Violence

This program shows employees how to recognize the warning signs of possible violent behavior, as well as how to avoid or defuse potentially dangerous situations.

Topics include:
- Aggressive Behavior
- Threats and Verbal Abuse
- Physical Assaults
- Armed Assailants
- And More

14 min.
DVD $120
- 19018A (S)  English

Preventing Work Related Burns

The Food Service Industry experiences the highest number of burns of any employment sector, about 12,000 each year out of an approximately 6.5 million workers yearly in the United States. This Industry also comprises one of the largest groups of workers injured on the job in the United States. Injuries are costly, both for the employee and for the restaurant owner. Job injuries and illnesses contribute to absenteeism, light duty assignments or other work restrictions, high turnover, and higher workers’ compensation costs. Common injuries include burns, lacerations, and strains.

Tempe, AZ 85282

100+ Training Requirements
1 Low Price

With our LMS training system, your company gets unlimited access to more than 100 training programs for one low annual fee. These programs combine all the features of our “Train the Trainer Kits”, plus add in-depth reporting, access via mobile devices and more. To get started, you simply select the suite that fits your company’s needs. Compliance with OSHA safety training requirements is now easier and more affordable than ever.

Features:
Always Current & Compliant
All courses are updated whenever a regulation changes at no additional cost.

Engaging Active Training
Training titles combine videos, slides, interactive elements and assessments to create an engaging training.

Simple Safety Management
Our system allows you to print certificates and track, assign and report on all training activity.

Online/Offline Access
Our system allows you to deliver training with or without an Internet connection.

Courses Include:
- Confined Spaces
- Fork Lifts
- Aerial Lifts
- Hand and Power Tools
- Earth Moving
- Excavation
- Ladder Safety
- Scaffolding
- Bloodborne Pathogens
- First Aid Training
- PPE
- Material Handling
- Welding
- Respiratory
- Electrical Safety
- Fall Pro
- HAZCOM
- LOTO
- Heat Stress
- Plus Dozens More
